DOORDASH

[01 / 07] · MAIN FEATURES

Developer First

Start scraping today

Enhance your apps with industry leading web scraping and crawling capabilities.

Scrape | Search

Python | Node.js

```python
# pip install firecrawl-py
from firecrawl import Firecrawl

app = Firecrawl(api_key="fc-YOUR_A

# Scrape a website:
app.scrape('firecrawl.dev')
```

[.MD]

```markdown
# Firecrawl

Firecrawl is a powerful web scrapi
tool that makes it easy to extract
clean data from any website.

## Features

- Scrape: Markdown from any page
- Search: Search + scrape the web
- Map: Discover all site URLs
- Agent: Extract with AI prompts
```

Add the Firecrawl Skill

Give your AI coding agent reliable access to real-time web data.

```
npx -y firecrawl-cli@latest init --all --browser

# Your AI agent (Claude Code, Codex, OpenCode, etc) can now:
# Scrape a page to clean markdown
# Search and scrape top results
```

```
6    # Crawl an entire website
7    # Map an entire domain
8
```

[02 / 07] · CORE

Built to outperform

Core principles, proven performance

Built from the ground up to outperform traditional scrapers.

No proxy headaches

Reliable. Covers 96% of the web, including JS-heavy pages. No proxies, no puppets, just clean data.

Firecrawl	96%
Puppeteer	79%
cURL	75%

Speed that feels invisible

Blazingly fast. Delivers results in less than 1 second, fast for real-time agents and dynamic apps.

URL	Crawl	Scrape
firecrawl.dev/login	756ms	750ms
firecrawl.dev/careers	784ms	751 ms
firecrawl.dev/faq	747 ms	777 ms
firecrawl.dev/p	[illegible]	745 ms

[03 / 07] · FEATURES

// Zero configuration \\

We handle the hard stuff

Rotating proxies, orchestration, rate limits, js-blocked content and more.

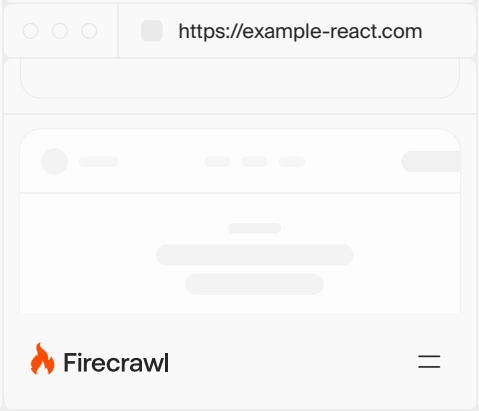
Docs to data

Media parsing. Firecrawl can parse and output content from web hosted pdfs, docx, and more.

https://example.com/docs/guide.htm

Knows the moment

Smart wait. Firecrawl intelligently waits for content to load, making scraping faster and more reliable.

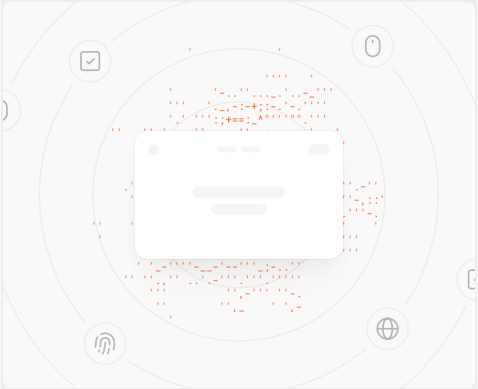


Scrapes the real thing

Cached, when you need it. Selective caching, you choose your caching patterns, growing web index.

Advanced web coverage

Enhanced mode. Reaches every corner of the web with comprehensive coverage and high reliability.



Interactive scraping

Actions. Click, scroll, write, wait, press and more before extracting content.
